

# Clean Energy Financing to Decarbonizing Supply Chains with High Impact and Steady Returns

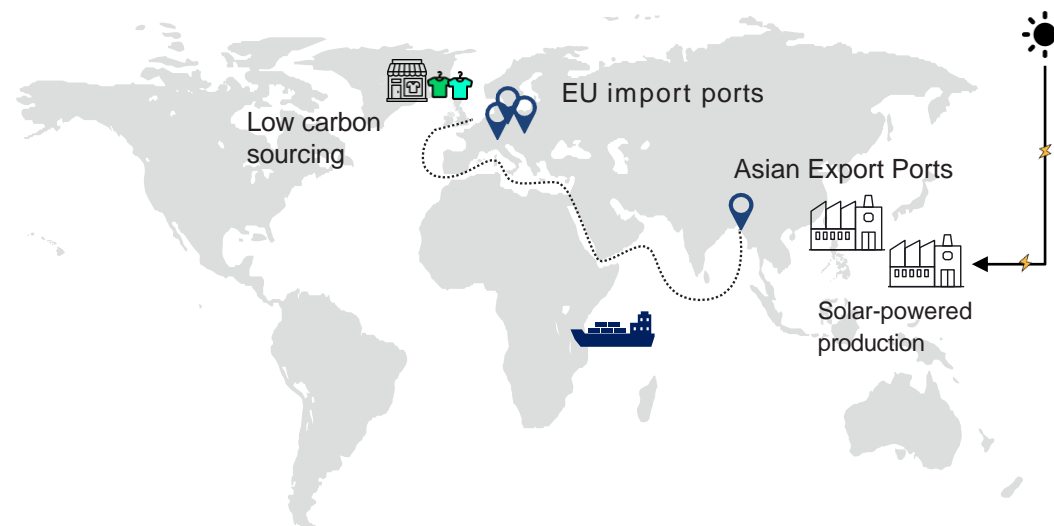

## The ORE II Fund

- ORE II is a **€20m** fund which intends to close **€10 m in phase 1** of its growth strategy. The fund targets **10 to 13% € IRR returns**, addressing the investment opportunity to decarbonize international supply chains creating high impact.
- The fund has downside protection through **first-loss coverage** and offers upside through **impact-linked finance**.
- Focus is on investing in Energy Service Companies providing rooftop solar to clients in **Bangladesh and Nepal**.

## Opportunity

- International supply chains account for 60% of global GHG emissions; Asia produces over 50% of global goods!
- EU sources >50% of its imports from Asia, relying on a carbon-intensive supply base.
- EU sourcing faces increasing climate and social compliance. Compliance safeguards thousands of jobs, especially those held by women.

## Key ORE II Impact Targets:

ORE II is designed to deliver measurable and meaningful impact alongside decent financial returns.

120K

Annual CO2 emissions curbed

€40 mil

Capital mobilized over 5 years

1 Mil

Annual Cost Savings

7.500

Jobs created & protected (50% women)

350

Women as leaders or owners

## Driving Impact Through the SDGs

# Solid Team, Quality Deals, Best Practices and a Scalable Finance Structure

## Best Practice

### Case of a Garment Factory: Hydroxide Knitwear: Empowering Women, Expanding Exports, and Ensuring Compliance

Supplies high-quality knitwear to renowned international brands.

60% of the factory workers are women.

Significant growth potential in global markets, enhancing Bangladesh's textile exports.

270 KW  
Worth €115k

60%
